Goals for the Day

- To define what is success in education
- To take ownership of our current educational system. How do you dive in as a civic leader? As an employer? As a parent?

Activities to Get us There

1. **Define** the purpose of Education
2. **Hear** from the “Clients”
3. **See** the classrooms
4. **Learn** about current pressing issues from the experts
 - Although there are many
5. **Challenge** ourselves not to be bystanders

It worked for me so
why do they say it is
broken now?

Challenge

Big Scale:

- Standing in the Gap (PBS), Waiting for Superman (Netflix), Most Likely to Succeed, I am not a Racist am I?

Local:

- What is your neighborhood school? Who goes there? What language is used about that school? What do they need?
